

SYCAMORE COMMUNITY UNIT SCHOOL DISTRICT NO. 427

SECTION 6 - INSTRUCTION

6:50 - School Wellness

**6:50 - School Wellness**

BELIEF STATEMENT

The Board of Education of Sycamore Community School District #427 is committed to providing a learning environment that supports and promotes wellness, good nutrition, and an active lifestyle and recognizes the positive relationship between good nutrition, physical activity and the capacity-of students to develop and learn. The entire school environment shall be aligned with healthy school goals to positively influence students' beliefs and habits and promote health and wellness, good nutrition and regular physical activity. In addition, school staff shall be encouraged to model healthy eating and physical activity as a valuable part of daily life.

INTENT

The purpose of this policy is to ensure a total school environment that promotes and supports student health and wellness, helps to reduce childhood obesity and meets the requirements of the Child Nutrition and WIC Reauthorization Act of 2004 and the Illinois School Code, including, without limitation, goals for nutrition education, physical activity and other school-based activities designed to promote student wellness; nutrition guidelines for all foods available during the school day; a plan for measuring implementation including designating one or more persons charged with operational responsibility; and involving parents, students, school food service providers, the Board of Education, school administrators, and the public in developing this policy.

RATIONALE

A disturbing number of children are inactive and do not eat well. The result is an alarming 16 percent of children and adolescents are overweight - a three-fold increase since 1980. Congress passed the Child Nutrition and WIC Reauthorization Act of 2004 on June 30, 2004. Recognizing the role schools can play in health promotion; this law requires local education agencies participating in a program authorized by the National School Lunch Act or the Child Nutrition Act of 1966 to develop a local wellness policy. The objectives of the wellness policy are to improve the school nutrition environment, promote student health and reduce childhood obesity. In addition, Public Act 094-0199 amends the Illinois School Code, requiring the Illinois State Board of Education to establish a state goal that all districts have a wellness policy.

The link between nutrition and learning is well documented. Healthy eating patterns are essential for students to achieve their full academic potential, full physical and mental growth and lifelong health and well-being. Healthy eating is demonstrably linked to reduced risk for mortality and development of many chronic diseases. Schools and school communities have a responsibility to help students acquire the knowledge and skills necessary to establish and maintain lifelong healthy eating patterns. Well-planned and well-implemented wellness programs have been shown to positively influence children's health.

Schools also have a responsibility to help students establish and maintain lifelong habits of being physically active. According to the U.S. Surgeon General, regular physical activity is one of the most important things people can do to maintain and improve their physical health, mental

health, and overall well-being. Regular physical activity reduces the risk of premature death in general and of heart disease, high blood pressure, colon cancer, and diabetes.

#### GOALS FOR NUTRITION EDUCATION

- A. The curriculum in preschool through grade 12 shall provide nutrition education that encourages a high level of nutritional awareness, emphasizes healthy choices for life, and is part of a sequential program that is coordinated within a comprehensive curriculum, consistent with relevant Illinois Learning Standards.
- B. To maximize classroom time and to achieve positive changes in students' eating behaviors, nutrition education shall be integrated into the standards-based lesson plans of other school subjects across curricular areas.
- C. Special emphasis shall be placed on promoting nutritious food choices in preschool through eighth grade as health habits are established at a young age.

#### GOALS FOR PHYSICAL ACTIVITY

- A. Students in preschool through grade 12 shall participate in daily physical education (allowing exceptions consistent with Illinois School Code) that encourages a high level of personal fitness and emphasizes self-management skills for life. The curriculum shall be consistent with and incorporate relevant Illinois Learning Standards.
- B. Special emphasis should be placed on promoting an active lifestyle in preschool through eighth grade as health habits are established at a young age. Accommodations shall be made for students with disabilities, 504 plans, and other limitations.
- C. Schools shall provide a daily supervised recess period to elementary students.

#### GOALS FOR OTHER SCHOOL-BASED ACTIVITIES DESIGNED TO PROMOTE STUDENT WELLNESS

##### A. Parent Partnerships

- Schools shall support parents' efforts to provide a healthy diet and daily physical activity for their children. This support shall begin in elementary school and continue through middle and high school.
- Parents shall be provided information to help them incorporate healthy eating and physical activity into their student's lives.

##### B. Consistent School Activities and Environment - Healthy Eating

- It is recommended that food providers share information about the nutritional content of school meals and/or individually sold foods with students, family and school staff.
- School meals shall be served in clean, safe and pleasant settings with adequate time provided for students to eat, at a minimum, in accordance with state and federal standards and guidelines.
- Food service personnel shall take every measure to ensure that student access to foods and beverages on school campuses meet federal, state and local laws and guidelines.

- Students, parents, school staff and community members who bring foods and beverages to school for parties/celebrations/meetings shall be encouraged to provide healthful options and shall be provided with a list of recommended food and beverage options.
- School based organizations shall be encouraged to raise funds through the sale of items other than food.
- Partnerships between schools and businesses are encouraged and many commercial advertising relationships involve foods or beverages. To meet wellness objectives, it is recommended that commercial advertising relationships involve only foods and beverages that meet nutrition standards.
- Schools shall take efforts to promote nutritious food and beverage choices consistent with the current Dietary Guidelines for Americans and Food Guidance System (MyPyramid) such as fruits, vegetables, low-fat dairy foods and whole grain products.
- Professional Development shall be offered for staff, to provide basic knowledge of nutrition along with activities, instructional techniques and strategies designed to change students' attitude and behavior.

#### C. Food or Physical Activity as a Reward or Punishment

- School personnel shall be encouraged to use nonfood incentives or rewards with students and shall not withhold food from students as punishment.
- School personnel shall be encouraged to use physical activity in a positive fashion and not as a punishment.
- School personnel shall be encouraged to use nonfood incentives or rewards with students and shall not withhold food from students as punishment.
- School personnel shall not use physical activity as a punishment or withhold participation in recess or physical education class as a punishment.

### NUTRITION GUIDELINES FOR ALL FOODS AND BEVERAGES AVAILABLE ON SCHOOL CAMPUSES DURING THE SCHOOL DAY

- For Kindergarten through grade 12, the Healthier US Challenge Nutrition Standards will be followed for all school meals and any other individual food and beverage sales/service (see Attachment A).
- Food providers shall employ food preparation, purchasing and meal planning practices consistent with the current Dietary Guidelines for Americans. Nutritious and appealing foods and beverages, such as fruits, vegetables, low-fat/low added sugar dairy foods and whole grain products, shall be available wherever and whenever food is sold or otherwise offered at school.

### MEASURING IMPLEMENTATION & COMMUNITY INVOLVEMENT

- The implementation of this Health and Wellness policy will be measured in accordance with procedures, evaluated annually and revised as needed.
- The Superintendent shall be charged with the operational responsibility for ensuring that

each school meets the local wellness policy requirements.

C. The Building Principal or designee of each campus shall be responsible for implementation of the local wellness policy and shall appoint a school-based evaluation team to develop and implement an annual evaluation plan. A member of each team will serve on the district wide health and safety committee.
