Monday - Thursday 3pm - 7pm
Friday 3pm - 5pm

SESSION CHOICES

Targeted Tutoring

Our most popular session, Targeted Tutoring sessions are an hour of one on one instruction in the subject area of need. All materials are customized and evolve with the student as he or she progresses.

Homework Help

Just as the name suggests, student receive an hour of support in completing and understanding daily homework, projects, reviewing class content, or studying for tests.

Targeted Tutoring - Group Session

Group classes are a great way to get your child the support he or she needs in a fun environment with one or two other peers. We are happy to assist in the logistics of forming groups, however, the initial student combinations are the responsibility of the parents. Groups no larger than 3 students can be formed based on grade level, ability, or need in a specific content area.

Groups receive a discounted rate.
