

Illinois Tech Pre-Engineering Summer Program

Start pursuing your engineering dreams with hands-on learning

Pre-Engineering Courses: Discover Your Possibilities

Introduction to Engineering and Fabrication Studio

(two-week course on Mies Campus)
Illinois Tech Mies Campus in Chicago,
June 24–28 and July 1–3

Introduction to Biomedical Engineering

Illinois Tech Rice Campus in Wheaton,
June 17–20 or July 15–18

Introduction to Computer-Aided Design (CAD) and Prototyping

Illinois Tech Rice Campus in Wheaton, July 8–11

Introduction to Microcontrollers and Automation

Illinois Tech Rice Campus in Wheaton, June 17–20

Introduction to Robotics

Illinois Tech Rice Campus in Wheaton,
July 8–11 or July 15–18

Our Pre-Engineering Summer Program allows high school students to explore a variety of engineering projects through engaging, exciting, and interactive learning.

- > **EXPLORE** a wide-range of engineering topics through hands-on activities and speakers
- > **SPARK YOUR CURIOSITY** with other high school students also interested in the field of engineering
- > **DISCOVER** your future and experience what it's like to change the world through engineering innovation

Are you ready to jumpstart your future?
